An external index referenced in your contract is used to measure rates.</p>

Activities of Daily Living	After the first contract year, withdrawal charges and any MVA decrease will be waived if the owner cannot perform two or more of the six defined activities of daily living (bathing, continence, dressing, eating, toileting and transferring) for at least 90 consecutive days. Taxes, Tax Advantages & Tax-Free Transfers

Tax Deferral	Federal income taxes are deferred until the year interest is withdrawn. ³ There is no tax deferral if the owner is a corporation. If the owner is a trust or other entity, please consult a tax advisor regarding the tax-deferred status. The return of principal may also be taxable on tax-qualified annuities, such as traditional IRAs.
Tax-Advantaged Income	Once the contract is annuitized, part of each annuity income payment is considered a tax-free return of principal (except tax-qualified annuities, such as traditional IRAs, where the principal may also be taxable).
Pre-59½ Withdrawals	Taxable withdrawals prior to age 59½ may be subject to a 10% federal early withdrawal tax penalty. The penalty may be waived for death, total disability (as defined by the IRS), or if the payment is made as part of a series of substantially equal payments for the life expectancy of the owner (except tax-qualified annuities where the entire amount withdrawn may be subject to a 10% federal early withdrawal tax penalty).
Tax-Free Exchange	May be used for exchanges from a life insurance or endowment contract or another annuity. To maintain non-taxable status, the owner and annuitant must remain the same, and the owner cannot take receipt of the funds.
Tax-Qualified Plans	May be a tax-qualified contribution, or transfer or direct rollover of funds from IRAs or qualified retirement plans such as SEPs, Keoghs, 403(b)s or 401(k)s.

³ Unless your annuity is a Roth IRA, for federal income tax purposes, withdrawals are treated as earnings first, subject to ordinary income tax, and as a return of principal after earnings are exhausted.

Death Benefit

Payable on death of owner. Equals the contract value. Joint owners must be each other's sole primary beneficiary.

Spousal Beneficiaries

If the spouse is the sole beneficiary of a deceased owner, he/she may elect to become the new "owner" or receive a distribution.

Non-Spousal Beneficiaries

Upon the death of any owner, the beneficiary may receive either annuity income beginning within one year or a total distribution within five years.

Annuities are long-term retirement saving vehicles.

Retirement plans and accounts such as 403(b)s, IRAs, 401(k)s, etc., can be tax deferred regardless of whether or not they are funded with an annuity. Investment in an annuity within a plan does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.
